DECLARATION OF DR. ANDREAS VAN ALMSICK

1. My name is Dr. Andreas van Almsick. I am competent to make this Declaration, am over the age of 18, and have never been convicted of a felony or any crime involving moral turpitude. Unless otherwise stated, all statements herein are made on the basis of personal knowledge.

2. I reside at Am Breul 4b, D-61184 Karben in the Federal Republic of Germany and I am a citizen of the Federal Republic of Germany.

3. From 1981 to 1990 I studied Chemistry at the University of Wuppertal. In 1990 I received my Ph. D. degree in Chemistry from the University of Wuppertal.

4. Since 1991 I have been employee in facilities of Schering AG, AgrEvo GmbH, Aventis CropScience GmbH and Bayer CropScience AG in their departments for Chemical Research. Presently, I am Group Leader of a Chemical Research Team and Leader of the Research Group "Diketoaryl (HPPD)" at Bayer CropScience AG. I have been involved in herbicide research since 1994.

5. I am a named inventor on United States Patent Application No. 10/506,644

6. Compounds according to claim 18 have been tested for herbicidal activity as set forth in Use Examples A and B of the specification as filed. I am qualified to evaluate these test data.

7. The particular compounds that were tested are compounds number 1-12, 34, 35, 145, 167 and 168 set forth in Table 1 in the Specification as filed, pages 78-131.

8. The data set forth in attached Tables 1, 2A and 2B demonstrate that each of the testes compounds has both pre-emergent and post-emergent herbicidal activity.

9. Given this, a person having ordinary skill in the art can easily conceive and practice the claimed compositions and methods without undue experimentation.

10. I further hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further these statements remain with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Signed at Frankfurt a.M., this 17 day of December, 2009.
